

Fully funded

Mastering Number (Embedding the Impact)

Support for schools that have already engaged in
Mastering Number at Reception and KS1

What is involved?

This community is for schools who have already engaged in Mastering Number. The maths lead will receive support to make Mastering Number a permanent element of the school curriculum.

The maths lead will engage in an online learning community and have continued access to all teaching materials, recording of central sessions, and sample teaching videos.

Who can take part?

This community is open to all schools involved in Mastering Number at Reception and KS1 in 2024/25, who are also part of a 2024/25 Teaching for Mastery Work Group or have formally expressed interest in engaging with a Teaching for Mastery Work Group with their Maths Hub in the future.

It is also open to schools that participated in Mastering Number at Reception and KS1 in previous years, provided they have not yet engaged with this community.

Find out more

Search **embedding mastering number** online or contact your local Maths Hub:

[Further information and booking form](#)

Benefits

- Your pupils will show confidence in exploring additive relationships
- Your pupils will make good progress towards the Early Learning Goals and year group expectations
- You will work with colleagues either in your school or in a local school to better understand how the Mastering Number resources can enhance teaching
- You and your school leaders will build on the learning of the first year of involvement to embed and sustain the practice in future years

The **community** is fully funded by the Maths Hubs Programme, so are **free** to participating schools.
